

UAV infographic

Use this infographic for a high level overview of the aviation landscape in New Zealand - and learn how UAV's fit in

The aviation industry is complex. Global organisations collaborate to develop and implement international standards that help ensure safety and common rules.

There are lots of airspace users and aviation groups.

People and businesses use Unmanned Aerial Vehicles (UAVs) for a range of purposes.

Use AirShare to:

- > Find out important info before you fly
- > Be safe in the airspace we share
- > See what great things NZ UAV'ers are doing
