

# fly safe be drone aware

Quick reference drone flying guide

## STAY

- below 400 feet (120 metres)
- within line of sight – if you can't see it, bring it back
- in daylight hours
- in permitted areas (e.g. at least 4 km away from an airport)
- away from populated places – the beach, neighbour's backyards, sports events
- away from other aircraft

## CHECK

- Maps – Where you can fly: [www.airshare.co.nz/maps](http://www.airshare.co.nz/maps)
- My Flights – Log your flight and, where necessary, get Air Traffic Control authorisation
- New User info – [www.airshare.co.nz/new-user](http://www.airshare.co.nz/new-user)

## JOIN

- Sign up on [www.airshare.co.nz](http://www.airshare.co.nz)
